Agenda.

1. Polo shirts.
2. Lunch bands.
3. The Opal Project.
4. Talent contest.
5. School pet.
6. Litter.
7. Day out.
8. Hub

1. Polo Shirts.

A request was made that logoed polo shirts were made available for the summer terms, school council feel this would make the summer months much more bearable.

2. Lunch Bands.

Several ideas were made, to replace the bands with cards or tokens that may be cheaper; have no bands at all and a teacher marking off students on an iPad as they come up for their lunch. But the strongest idea that was felt to be the best was to give the bands out at the beginning of lunch, with the class LSW holding them until this point.

3. The Opal Project.

The issue of no footballs was raised again, most get lost by students kicking them offsite or onto the roof, it was suggested that they are collected at the end of break by a sports captain and placed in Mr Shand's office. Can the den building area have stakes to help secure pallets.

Bikes to be available two lunchtimes a week on a class rotate, giving an opportunity to ride.

Can games be provided in classrooms for wet play?

Could one of the hard courts have Astro Turf laid to create an all weather pitch?

4. Talent Contest.

It was suggested that a talent contest be held between tutor groups, with each class putting together a performance or talent. Also to have a staff element, with staff competing against each other.

5. School Pet.

Students would like a school pet, several suggestions were made, dog, chickens, fish and rabbit, however concerns were made over what would happen to them during the weekends and holidays, would there be a member of staff able to take the pet home?

6. Litter.

Could there be a house litter pick contest with the three houses taking it in turn to collect litter on a termly rotation. The litter would be weighed, with the largest total winning.

7. Day out.

School council would like a whole school trip, suggestions of Longleat, Cranham Scout Centre and Laser Tag were put forward. Could SLT discuss the possibilities.

8. Hub.

Students felt that there was nowhere comfortable to go when a student was out of class and struggling. A dedicated office/room was suggested that had beanbags, sofa, desk and computer. This would could be manned or unmanned. It was thought that the office next to Mr Shand's office would be a good location, as it is an area where staff are, it was pointed up that this office was used for Safe Guarding, students suggested moving it to the eco classroom, where it would be out of the way.

A.O.B.

Reps asked if there could be an outside lunch organised?
